

# Uuenduste laadimine

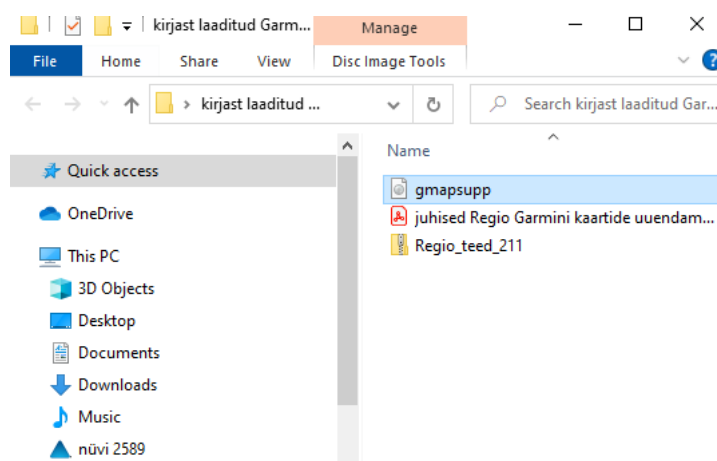

Lahti pakitud \*.zip-st leiata \*.img (Disc Image File) faili nimega 'gmapsupp'. Kirjutage sellega üle oma Garmin seadme Regio mälukaartil olev sama nime ja tüübiga fail. Mälukaartil olevaid teisi faile ei tohi mingil juhul kustutada ega muuta!

NB! Uuendus on kasutamiseks ühes seadmes ja ei ole mõeldud edastamiseks kolmandatele osapooltele.

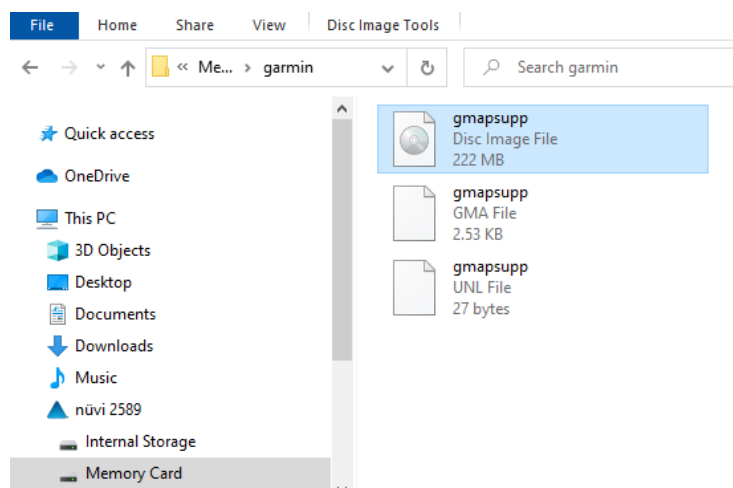

*In the unzipped folder you will find an \*.img (Disc Image file) named 'gmapsupp'. With it overwrite the file with same type and name on your Regio Garmin device memory card. The other files on the memory card must not be deleted or alter!*

*NB! The file is for use on one device only and is not intended to be transmitted to a third party.*

Alla laaditud ja lahti pakitud failid / downloaded and unzipped files:
